

BG-250TWIN FLOOR GRINDER

A 2-SPEED GRINDER FOR BUSH HAMMERING

The Blastrac BG-250TWIN is a single disc concrete grinder that allow you to work with two different speeds. It is specially designed for fast and easy switching between normal grinding and using bushhammer tools. The special TWIN electromotor has 2 settings: LOW and HIGH speed. The HIGH speed setting gives the normal RPM's for grinding and the LOW speed setting has the perfect RPM's for bushhammer tools. This feature eliminates the need for changing the pulleys every time you want to switch between normal grinding and bushhammer tool operation.

The BG-250TWIN single disc grinder is dust free when connected to the appropriate Blastrac dust collection system. Blastrac has designed a full range of concrete grinders and diamond products, which gives the opportunity to treat any floor and specific application.

USER FRIENDLY

Easy to manoeuvre, minimum vibrations and many safety features. All our single disc grinders are easy to transport due to the lifting eyes and handles. Plug and grind!

ONE SINGLE GRINDING HEAD

The single grinding head allows all the pressure of the machine to be distributed onto the one diamond disc in use. This makes the machine perfect for 'aggressive' grinding.

DUST FREE WORKING ENVIRONMENT

Every Blastrac grinder should be connected to a Blastrac industrial dust collector. This means that you are able to work dust free, creating a safe working environment.

NOTE: Keep in mind that working with bushhammers or cutters is tough job with a lot of vibration. Although the machine is built to last, be aware that wear parts can have a shorter lifetime when using bushhammer tools. Give your machine the extra maintenance, inspections and care to ensure maximum performance and a safe job every time.

ADAPTER PLATE SYSTEM

Our single disc grinders are compatible with the wide range of Diamag tools. This allows you to use the machine for a wide range of flooring applications.

2 DIFFERENT SPEEDS - PERFECT FOR BUSH HAMMERING

The Blastrac BG-250TWIN has 2 different speeds: LOW & HIGH speed. The LOW speed is perfect for bush hammer tools (line removal, decorative flooring...) and the HIGH speed for normal grinding tools.

GREEN TECHNOLOGY

Our single disc grinders, like any other Blastrac machine, neither use any chemicals nor waste valuable drinking water.
